"Enabling bioscience industry through skill proficiency, quality assurance and business development "

ABOUT US

Corporate

Halquest (formerly known as RQest Convergent, RQC) is one of the pioneers within Malaysia that offers competency-based training to enhance skill proficiency and consultation on business development, quality assurance, regulatory affairs, professional development, and project management to leading companies and government agencies in the area of biotechnology, biochemistry, and biopharmaceutical.

Our training aims to fill the gap between the theoretical education and the practical demands of industry, for example, Research & Development (R&D) of Validation, R&D of Verification, and regulation, processing and quality assurance.

Vision

To become a life-long proficiency centre for the development and sustenance of an intelligence community through innovative, progressive, and comprehensive facilitation programs through online and offline platform.

Mission

We design, develop, and deliver high impact programs and facilitation services to produce superlative human capital in the science and Halal industry.

Goals

- To sustain high impact training and consultancy towards professional development in bioscience area which cover fundamental and advanced bioscience module training and certification courses.
- To educate and advise bioscience companies in quality management such as Good Lab Practice (GLP), International Standards Organization (ISO), Total Quality Management (TQM), Halal Assurance System and all modules that are related to these disciplines.
- To proffer wide range of consultancy services in business development and project management such as laboratory setup and other projects that are relating to bioscience industry.

Values

- Our cornerstone is **QUALITY, EXCELLENCE** and **OUTSTANDING**.
- Our core value and culture is to proffer the best quality of solutions to our clients, passionate to be excellent and leading to become outstanding from other players.

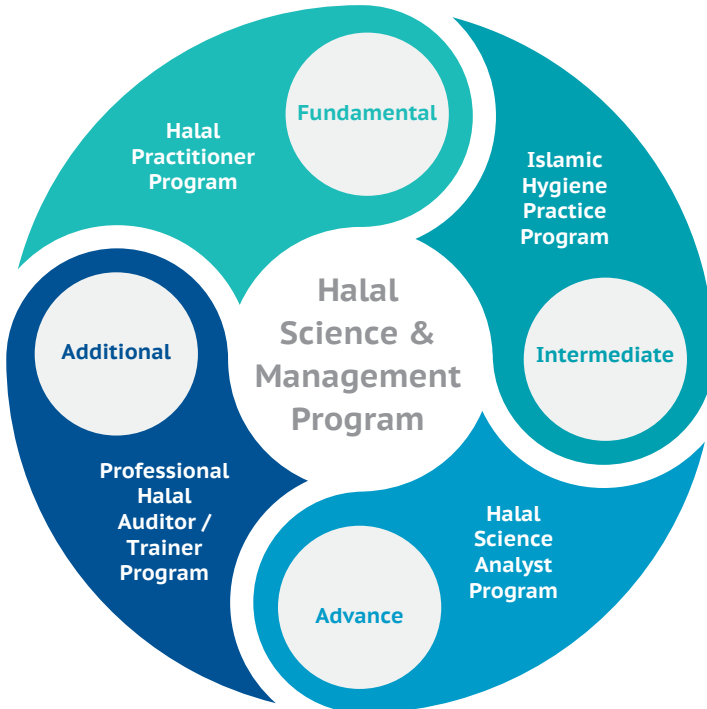

HALAL SCIENCE & MANAGEMENT PROGRAM

Halal Science and Management Program (HSMP) is a professional proficiency program aimed to produce skilled and semi-skilled workforce that can meet the current global needs of halal industry.

HSMP is a holistic program that embeds all the skills and knowledge required to become a competent halal industry player. The module encompasses scopes such as Shariah, management and science that are important in analyzing and mitigating halal risk throughout the halal supply chain.

Halal Science and Management Program from Halquest consists of 4 sub-programmes: **Halal Practitioner Program** (Food, Pharmaceutical and Cosmetic), **Islamic Hygiene Practice Program** (Laboratory, Kitchen, Manufacturing–Food & Pharma, Premise, Truck and Shipping Container), **Halal Science Analyst Program** and **Professional Halal Auditor/Trainer Program**.

HSMP will help you to develop a comprehensive soft skill and technical competencies in Halal aspect which is necessary for all trading and industries across the entire supply chain.

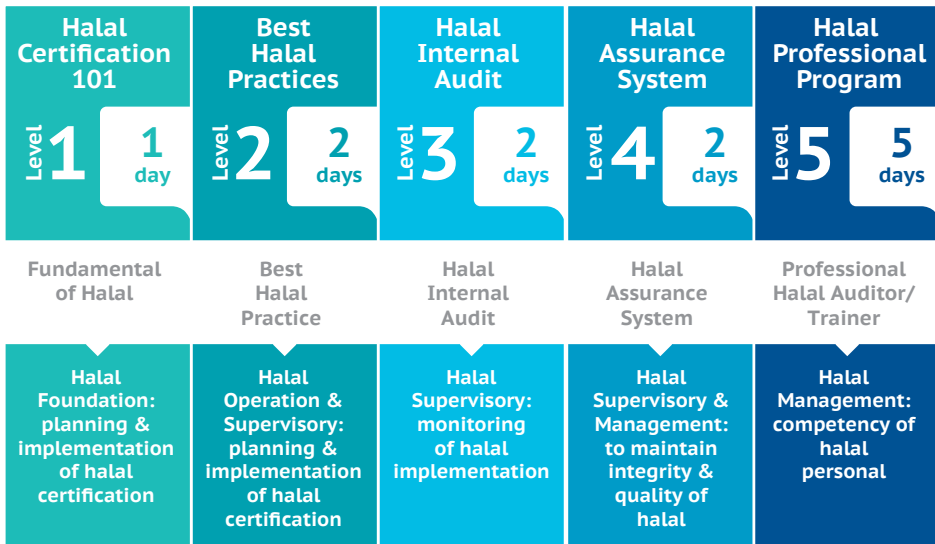

HALAL PRACTITIONER PROGRAM

Halal Practitioner Program is a program designed for people who directly implement, manage and monitor the activity of Halal. This program is designed in a structure that addresses essential skill sets required in Halal management stemming from the operator, executive to the top management level.

This program consists of 3 categories with 5 levels: Foundation Course (Level 1-2), Advance Course (Level 3-4) & Master Course (Level 5). These modules will be conducted through modular session which gives flexibility for the industry players to plan their time to fit into suitable training courses. Foundation and Advance Courses are pre-requisite programmes prior to Master Course. Each session shall be conducted through lectures, hands-on practical workshop in laboratory, case study discussion and assessment. In-house program is also available.

Halal Practitioner Program from Halquest covers the scopes of food, pharmaceutical and cosmetic industries.

ISLAMIC HYGIENE PRACTICE PROGRAM

Islamic Hygiene Practice Program is a competency program designed for halal industry practitioner who involves, directly or indirectly, in the process of cleaning and hygiene practice. This training caters not only to people who are responsible to conduct SERTU/SAMAK process, but also opens to audience who would like to understand the practice of Islamic hygiene in a scientific and systematic manners.

The program covers on the fundamental concept of Islamic Hygiene Practice, the integration of SERTU/SAMAK process into current hygiene practice, tools, technologies and standard operating procedures of SERTU/SAMAK within the scopes of laboratory, food manufacturing, premise, kitchen and logistic.

These modules will be conducted through two methods; either in modular session by Level 1-Level 3, or to be conducted in 3-day full session. Each session shall be conducted through lectures and hands-on practical classes.

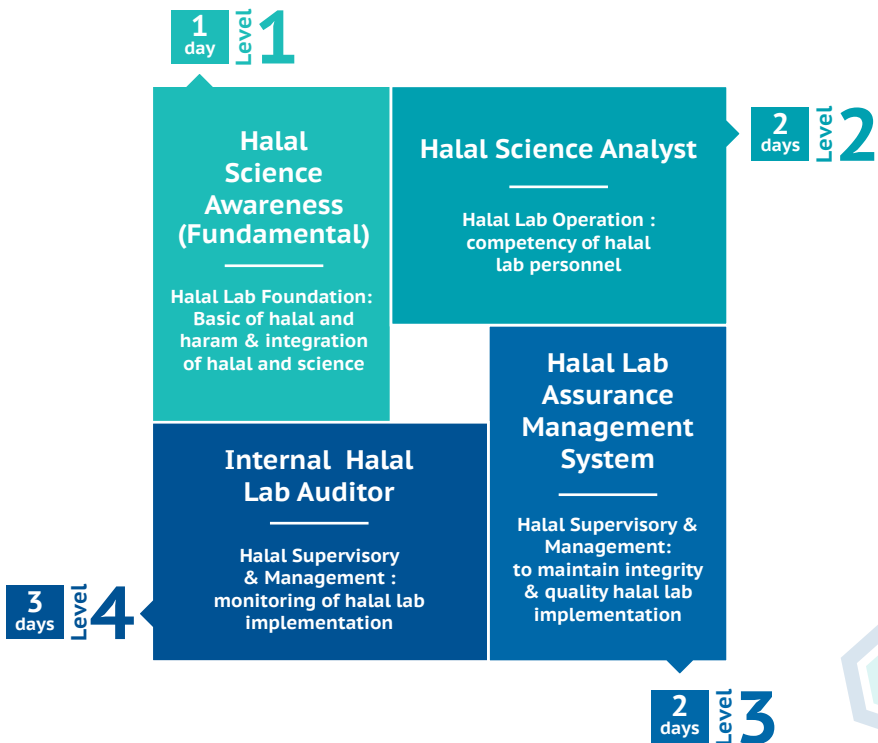

level 1	1 day	Fundamental of Islamic Hygiene Practice	Fundamental Management & Operation: basic of Islamic Hygiene Practice
level 2	1 day	Islamic Hygiene & Safety	Tools & Technologies Operation: understanding process & standard operating procedures (integration into hygiene practice)
level 3	2 days	Islamic Hygiene Workshop	Kitchen/ Lab/ Transport Sertu Management & Operation: basic of Islamic Hygiene Practice

HALAL SCIENCE ANALYST PROGRAM

Halal Science Analyst Program is a program designed to address the training need analysis on halal and science. This training focuses not only on science study but also on other discipline, particularly in halal industry practice and Syariah studies.

The program is developed to elucidate and educate participants on the relation of halal and science and how these two major elements are interconnecting each other to complete the landscape of Halal Ecosystem. It covers the overview of halal science and testing, halal authentication principle, integration of halal laboratory management into quality management and its relations to halal industry needs.

This program is structured into 2 categories with 4 levels: Halal Science Awareness (Level 1) and Halal Science Practice (Level 2-4). These modules will be conducted through modular sessions which give flexibility for the industry player to plan their time to fit into the training courses. Each session shall be conducted through lectures, hands-on practical workshop in laboratory, case study discussion and assessment. Upon completion of all four levels, participants will be awarded a certificate of completion as Certified Halal Science Analyst.
